
Standard of Practice: Colon Hydrotherapy

Standard of Practice

When performing colon hydrotherapy, naturopathic doctors must do so in a safe, competent and ethical manner.

Introduction

A complete list of restricted activities is found in the *Government Organization Act S.7.1*. Restricted activities authorized for naturopathic doctors are listed in the *Naturopaths Profession Regulation*. Naturopathic doctors are granted the restricted activity of inserting and removing instruments for the purpose of performing colon hydrotherapy.

This standard is intended to outline how naturopathic doctors can provide safe, competent and ethical care, when performing colon hydrotherapy for a patient.

Definitions

Colon Hydrotherapy: the therapeutic introduction of water in to the colon via the rectum stimulating the evacuation of waste through natural peristalsis.

Competence: the combined knowledge, skills, attitudes and judgement required to provide professional services, defined in the *Health Professions Act*.

Patient medical record: an account or evidence of documented patient findings, assessments, diagnoses and treatments.

Restricted activities: indicated activities performed as part of providing a health service that require specific competencies and skills to be carried out safely. Restricted activities are not linked to any particular health profession and a number of regulated health professionals may perform a particular restricted activity. A complete list of restricted activities is found in the *Government Organization Act S.7.1*. Restricted activities authorized for naturopathic doctors are listed in the *Naturopaths Profession Regulation*.

Standard of Practice: an authoritative statement that describes a minimum required behaviour of every naturopathic doctor and is used to evaluate individual conduct. Naturopathic doctors should always strive to practice above the minimum standards. Performance below the minimum standard may result in disciplinary action.

Naturopathic doctors demonstrate this standard of practice by:

1. only performing colon hydrotherapy with authorization by the Registrar and in accordance with any restrictions or provisions required by the Registrar;
2. ensuring that all required qualifications to perform colon hydrotherapy are current, in accordance with the **CNDA Continuing Competence Program Rules**;
3. having skills and knowledge of:
 - a) theory and principles of colon hydrotherapy,
 - b) anatomy,
 - c) assessment and diagnosis,

-
- d) indications and contraindications;
 4. properly documenting colon hydrotherapy treatments in the patient medical record in accordance with the **CNDA Standard of Practice: Records Keeping** and must include:
 - a) specific administration of the treatment (e.g. open system vs. closed system),
 - b) specific metrics of released fecal matter observed,
 - c) how the patient tolerated the treatment, and
 - d) state of patient upon conclusion of treatment;
 5. having knowledge of and performing colon hydrotherapy in accordance with the following CNDA standards:
 - a) **CNDA Standard of Practice: General**,
 - b) **CNDA Standard of Practice: Consent**,
 - c) **CNDA Standard of Practice: Duty to Report**,
 - d) **CNDA Standard of Practice: Infectious Disease Prevention and Control**, and
 - e) **CNDA Standard of Practice: Emergency Readiness**.
 6. complying with supervision requirements as set out in the *Naturopaths Profession Regulation*, when supervising another naturopathic doctor performing this restricted activity.

Expected Outcomes

Patients are satisfied that:

- naturopathic doctors perform colon hydrotherapy safely, competently and ethically.
